CROCKETT FOUNDATION

The Crockett-Allen Family Scholars Program is where academic excellence meets personal development and the pursuit of knowledge beyond the classroom. We provide high school students and their families with a wide range of opportunities, experiences, and resources that help them to reach their full potential.

At the Crockett Foundation, we believe every student deserves the opportunity to pursue their dreams and achieve their goals. We are dedicated to empowering students in their academic, personal, and professional growth, ensuring they thrive both inside and outside the classroom. The Scholars Program is tailored for high school students who are committed to academic excellence, personal development, and civic engagement. The ideal candidate is a motivated and resilient 9th or 10th-grade student, eager to seize opportunities for growth, overcome challenges, and reach their full potential with the program's support.

The program offers a well-rounded approach to preparing students for college and career success. Core components include FL Prepaid Scholarships, ACT & SAT prep, and a variety of college and career readiness activities that focus on leadership, communication, and critical thinking skills. Students also participate in experiential field trips to industries and college campuses, gaining exposure to different fields and professions. Hands-on experience is further provided through internships and on-the-job training, while employability skills are developed through soft skills training and volunteering opportunities. Additionally, the program prioritizes students' overall well-being through health and wellness workshops, promoting both physical and mental health. Cultural education broadens students' worldviews, preparing them to be responsible global citizens.

Referrals are accepted annually in August and September from school counselors, teachers, and community leaders. Through the Crockett-Allen Family Scholars Program, students are given the tools, resources, and experiences to succeed academically and grow personally. We aim to inspire the next generation of leaders, thinkers, and innovators, and help students and families achieve their dreams and build a brighter future.
